

A black and white photograph of a woman with blonde hair, wearing a white lace wedding dress. She is shown from the chest up, looking down and to the right, with her hands near her ears as if adjusting her hair or veil. The background is softly blurred, showing what appears to be a window with patterned curtains.

My Brides

Loren is the perfect person to spend the morning with on your wedding day - Loren will leave you feeling relaxed and calm, she radiates good vibes.

There were six of us, each very different (in looks and the amount of makeup we wear), our make up felt light and lasted all night, Loren worked quickly and every single of us loved our look she created.

Thanks again x

Why does it cost more for the Bride?

The Bride is the most important person on the day therefore a bespoke service is required. Attention to detail is heightened, extra skin preparation is essential to not only keep the makeup fresh but to calm and relax. The Bride will have the longest treatment. The pricing model also takes into account the extra timing required for exchanging emails and being available at any time from the first message up until the wedding day to discuss any questions or concerns she may have.

Lashes & touch up kit is also included for the Bride.
